

This letter serves as a notification to you as a Blue Cross Blue Shield (BCBS) Blue Value or Blue Home member that your insurance is **not** currently in network with Wake Med hospitals.

Kamm McKenzie OB/GYN is an in network provider with the BCBS Blue Value and the BCBS Blue Home plan. If you are seen at a Wake Med hospital, charges will be applied to your out of network benefits. This can be very costly to you.

We have a partnership with Rex Hospital in which you may use their obstetricians to care for you during labor, postpartum, and for other emergent needs. Your insurance will be in network for delivery and surgery at Rex Hospital. We strongly encourage the in hospital portion of your care to be at that location. The Kamm McKenzie physicians do not see patients at Rex Hospital.

I understand that Kamm McKenzie accepts my BCBS Blue Value / Blue Home insurance and is an in network provider. I also understand Wake Med hospital is currently out of network for my insurance plan. I wish to continue as a patient of Kamm McKenzie OB/GYN. I understand that any obstetric or gynecology care (including, but not limited to, obstetric triage visits, labor and delivery, and/or surgical procedures) will occur at Rex Hospital under the care of their staff physicians. I may incur higher costs if this care is delivered at Wake Med, an out of network hospital, and that it will be my responsibility to pay these costs, along with any deductibles, coinsurance, or copays that may apply to Kamm McKenzie OB/GYN claims.
